UNIQUE INTEGRATED SERVICE

Our UK-based Managed Digital Modelling service is unique, in that our best consultants will interface directly with your project team, coordinate the exchange of information with our studio in India, and validate all models and digital data to your exact information requirements, standards and project BEP.

We are always on hand to assist in any way necessary to integrate the information requirements and models into the project.

FULL CONCEPTION TO CONSTRUCTION "WORK-SHARING"

Our consultants are just another part of your team, with no need to change the way you work.

- Massing & shadow studies
- Full Architectural, Structural and MEP modelling
- Scheduling and quantification
- Constructability analysis and sequencing (4D)
- Costing (5D)
- Content creation

PROCESS MANAGEMENT & DATA VALIDATION

People and process are essential to implementing effective technology. The key to our service is our ability to deliver the process to support your people.

- Detailed model validation checks
- Federation of models and clash reviews
- Data approval and compliance checks
