DANIEL HESELWOOD

DIRECTOR

Daniel has extensive experience managing and developing CAD/BIM systems from large international firms with multiple sites across a number of different regions to the single person practices. This breadth of experience allows him a greater understanding of the most suitable and effective approaches to technology implementation, project management and data sharing.

Having completed many development projects from inception to completion including; BIM integration, software update roll-outs and staff development programs, Daniel has the necessary skills to ensure all the different stages of a project run smoothly and risk-free using tried and tested methodologies.

KEY ACHIEVEMENTS

- Development of BIM processes, procedures and documentation to suit ISO19650 for the UK offices and NBIMS for the US offices. Setup and configuration of Autodesk Revit and Autodesk AutoCAD to suit the standards for an internationally acclaimed Architectural practice.
- Development of a set of standards compliance tools in VB.NET for AutoCAD, Revit, MicroStation and OpenBuildings Designer including layer management, printing/publication and drawing management utilities.
- Budgeting, configuration, procedural strategy, implementation, training and support of Revit for several multi-site teams with no previous exposure to a BIM solution.
- Author of multiple technical assessments on behalf of KnowledgeSmart.
- Chair of the BIM Regions Thames Valley group.

PRESENTATIONS

- Author of “Practical Architectural Modelling” and “Practical Structural Modelling” books (Bentley Institute Press)
- Digital Construction Week 2018: “A Fistful Of IFC”
