

FILE NAMING TOOL

CREATE FILES AND ENSURE THE WHOLE PROJECT TEAM USES THE CORRECT NAMING STANDARD
DOWNLOAD EVOLVELITE FROM [HTTPS://EVOLVE-CONSULTANCY.COM/RESOURCES/](https://evolve-consultancy.com/resources/) TODAY!

Creating reports, spreadsheets, Exchange Information Requirements, BIM Execution Plans, specifications, presentations, CAD files, models, whatever you need, with compliant file names has never been easier.

OFFICE COMPATIBLE

Works seamlessly with Microsoft Office templates for Excel, Word, PowerPoint, as well as most software you need on a daily basis.

EASY TO CONFIGURE

Pick the templates you intend to use to create new documents, either on your local drive or on a server. Share settings on a network drive.

FLEXIBLE LICENSING

Available as stand-alone, site-wide or corporate versions. No additional licensing management software needed.

NO ANNUAL SUBSCRIPTION FEES

Pay only for upgrades when you need them.

ISO 19650

- Comes pre-configured with settings to support the **UK** and **Irish National Annexes**.
- Fully customisable for field lengths, Originator codes, Functional and Spatial breakdowns.
- Automatic sequential numbering.

COMPANY OR PROJECT STANDARDS

- Create multiple settings files to suit the exact requirements on all projects or clients.
- Rename, remove or add fields as needed to match any country's conventions.
- Lock fields to restrict changes.
