## TRAINING SYLLABUS

### DPL4 OFFICIAL SOLIBRI COBIE EXTENSION

no. of delegates Up to 8 maximum.

description COBie (Construction to Operations Building information exchange) is the UK standard for delivery of operational data from design to FM. From the preparation needed for COBie, and what it is intended to provide, through to understanding what information needs to be completed and when, attendees will gain a comprehensive understanding of how to generate COBie from federated models.

prerequisites A firm grasp of using Solibri; the concepts of Solibri classifications and information takeoffs.

objectives The following product areas are covered during this course, although a fully customised course can be developed based on your needs:

#### 1. COBIE EXTENSION SET-UP

- COBie overview
- Solibri Solutions Centre
- Custom resources
- Rules, classifications and ITOs
- Setting up the classifications

#### 2. GENERATING COBIE

- The relationship between ITOs and COBie
- Editing ITOs

#### 3. VALIDATING COBIE

- COBie settings
- Consistent data & the project Responsibility Matrix
- Exporting to Excel
- The COBie rulesets & preparation
- Stage-based requirements
- COBie quality control rules
- Reporting
