THE MOST ECONOMICAL ENTRY POINT INTO OUR AWARD-WINNING CONSULTING EVER!

Our Kick-Start Subscription service is a new way of thinking about developing your technology and skills over a timeframe to suit you.

Designed for SMEs who need a little extra expertise every now and again, but aren't able to commit to full-time BIM staff or regular consultancy days, a Kick-Start Subscription offers a level of service unique in the industry at a cost that won't break the bank.

- Quarterly invoicing for certainty of cashflow
- Subscribe for three years and receive over 10% extra savings
- A team of experts 5 days a week for less than you might pay for an individual

Your annual Kick-Start Subscription gives you a pool of days to use how and when you want.

Some help right now with a project model or delivery? We'll be right there.

A couple of days training next month? Of course.

A day later in the year to help with your first BIM project? It's in the calendar.

If deadlines are closing in and you need top-up days, that's not a problem either. Spread the cost over this year and next.
